

ST. PAUL'S CATHOLIC JUNIOR SCHOOL

Year 5 Curriculum Newsletter: Autumn Term 2023

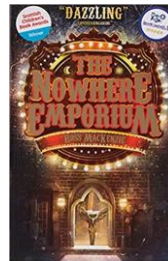

To all our parents and carers,

We are delighted to share with you the content of the Year 5 curriculum for this term. We hope that this gives you a window into your child's learning and enables you to have conversations with your child about what is going on in school.

ENGLISH – reading

Our fantastic novel for the Autumn term in Year 5 is 'The Nowhere Emporium' by Ross McKenzie. This award winning novel combines fantasy, mystery and suspense!

In our reading comprehension sessions, the children also experience both fiction and non-fiction texts, based on a range of subjects relating to the whole curriculum. Phonics interventions will be taking place to support children who require them.

Your child will be receiving a reading book to bring home. Please read with your child at least four times a week.

Further details about English homework will be sent out in a separate letter.

ENGLISH – writing

We base the teaching of our writing on the language and structure found in quality texts.

Narrative writing:

Linking to our novel, the children will create their own fantasy story based on 'The Nowhere Emporium'.

Speech writing

This unit links to our history work, with the children creating a persuasive speech for an Anglo-Saxon battle!

GRAMMAR:

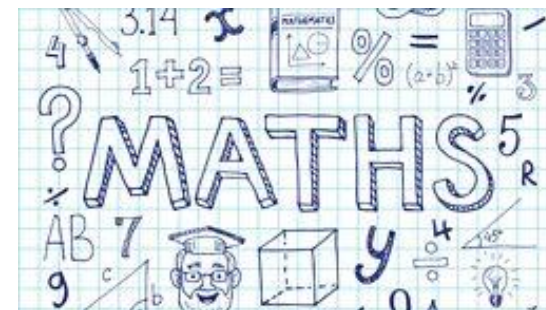

We will continue to build on and expand upon the children's knowledge of grammar, looking especially this term at:

- Revisit previous objectives: words classes, conjunctions, standard English, synonyms for adjectives, determiners, direct speech, expanded noun phrases and adverbial phrases
- Nouns as verbs
- Synonyms for verbs
- Recognising determiners (demonstrative, quantifiers, interrogative)
- Using Determiners (demonstrative, quantifiers, interrogative)
- Manipulating Direct Speech
- Recognising Concise Expanded Noun Phrases
- Using Concise Expanded Noun Phrases

SPELLINGS:

Spelling lessons take place regularly in each class. This term, we will explore the following:

- | | |
|---------------------------------------|-------------------------------------|
| -Words ending in '-tious' and '-ious' | -Words ending in '-ance' |
| and '-ancy' | |
| -Words ending in '-cious' | -Words ending in '-ent' and '-ence' |
| -Words ending in '-cial' | -Words ending in '-able' and |

This term we will cover the following topics:

- place value of numbers up to a million
- addition
- subtraction
- multiplication
- division
- fractions.

For each topic, we work through the following sequence, encouraging the mastery approach in Maths which helps the children to apply their knowledge:

1. We practise the skill.
2. We link the skill to questions involving units of measure.
3. We complete missing box questions relating to the skill.
4. We answer reasoning questions based on the skill.
5. We problem solve, applying the skill we have learnt.

You can view our calculation policy on the school website, which may help you to understand how we teach Maths in school.

<https://www.spcj.co.uk/letters/> We will also complete weekly basic skills sessions, which help the children to practise core mathematical skills

Details about Maths homework will be sent out in a separate letter.

RE

Here are our topics for this term:

Ourselves:

Christians believe that each person is made in the image and likeness of God. The children will explore the concept that to know ourselves and to appreciate our value is central to our wellbeing.

Life Choices:

Through Baptism the Christian is called to a life of holiness and to the mission of spreading the Good News. The children will consider the different ways in which that call can be lived out, focusing on particular on marriage, but also on other ways in which all Christians can serve others.

Hope:

Christians celebrate the birth of Jesus at Christmas. During Advent, the children will think about what it means to prepare to remember Jesus' coming in history but also how we can prepare for Christ who meets us each day, while waiting in joyful hope for his coming at the end of time.

Year 5 will lead our school in the celebration of the birth of Jesus at Christmas. We will inform you of further details closer to the time.

The children will also explore the faith of JUDAISM. We will be looking at the feast of Passover, or Pesach and on how and why Jewish people celebrate this time of year.

Daily acts of worship also take place within each class.

PSHE

Rights and Responsibilities

In this topic in Year 5, the children will explore the rights and responsibilities that come with being a citizen. They will discuss the importance of democracy, relating this practically to our School Council. During this topic, the children will think about how they can use their own voice positively, whilst also participating in group decision making

Cultural similarities and differences

Year 5 pupils will think about cultural similarities and differences and how sometimes these can lead to conflict. They will develop their understanding and awareness of racism.

Resisting peer pressure

This unit covers a range of concepts. In an age appropriate way, ideas such as bodily autonomy, substance abuse, and cyberbullying are explored and discussed. Children are shown ways to get help if they are concerned about any of these areas.

Promoting physical and mental wellbeing is central to our curriculum approach and forms part of our daily life within school. We also aim to support these further by celebrating **Rainbow Day**, **Firework Safety**, **'Hello Yellow Day' for world mental health**, **Antibullying Week** and **Road Safety Week**. Watch out for further details later this term!

SCIENCE

Properties and changes of materials

Pupils will revisit solids, liquids and gases, exploring reversible and irreversible changes between these states.

HISTORY

'What impact did the Anglo Saxons have?'

In this unit, the children will explore the world of the Anglo Saxons were and why they came to Britain. They will look at archaeological artefacts and primary sources to help them gain a full understanding of day to day life during this period. They will also consider the different interpretations of the impact of the Anglo Saxons in England and devise their own opinions on whether this era truly deserves to be called the 'Dark Ages'.

Black History Month (October) is also a focus in our school and, in both assemblies and lessons, children will be researching and learning about figures from black history who have contributed to our world and who have much to teach us about resilience and respect.

GEOGRAPHY

'Where should we go on holiday?'

The question the children will investigate is 'Is Climate Cool?' In this unit, the children will learn to read weather and climate maps, and learn how weather and climate can be seen in specific world climate zones, such as the polar regions, rainforests and the tropics. They will explore the climate, flora, fauna and also the human activity in these zones.

In this unit, the children learn about the Alpine region of Europe, how the Alps were formed and how homes are adapted to the climate. They will use both physical and political maps to research this location.

ART

'Anglo Saxon treasures'

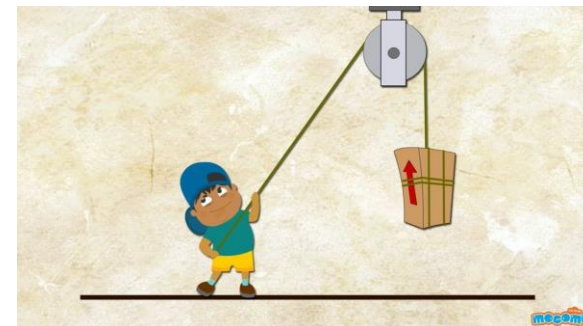

This term, the children will explore the art of the potter Lucie Rie as well as the Anglo-Saxon treasures discovered at Sutton Hoo. Using these techniques, the children will design and create their own treasure sculptures.

DT

Pulleys

The children will explore pulley mechanisms, designing, creating and evaluating a moving toy.

SPANISH

Our specialist Spanish teacher will be teaching the children how to talk about themselves, their family and their friends. The children will also be taught how to explain if they are feeling unwell.

"Nos gusta aprender español en St Paul's."

On September 27th, the school will be celebrating **European Languages Day**, with the children taking part in activities promoting the richness and diversity of the languages spoken in our continent.

MUSIC

'Living on a Prayer'

The children will listen to and rehearse this famous Bon Jovi song, thinking about how Rock Music developed. They will also learn about pulse, rhythm and notation along the way. There will also be a chance for children to improvise their own compositions based upon what they have learnt.

COMPUTING

'Web designer'

In this activity the children will learn about the history of the web, basic HTML, how to create their own graphics and how to publish their own website.

PE

Dance, gymnastics, yoga and strength building

The children will develop their skills in all of the above areas. Our new PE scheme includes lessons that are easily adaptable for rainy days, meaning that not even bad weather or the hall being used can stop us taking part in high quality PE sessions!

We hope that you find this newsletter helpful. Further information on our curriculum and how we teach can be found on the school website. We will be adding further to this over the year.

Follow us on Twitter (@spcjliverpool) where we share the excellent learning that goes on at St. Paul's.

If you have any questions about our curriculum, or any concerns, please do not hesitate to get in touch.

Many thanks,

The Year 5 teaching team:

Mrs. Wickham, Mr. Tunstall, Miss Heritage and Mr Smith
