Jessica (3C) and Mitchell's (4L) sunflower is growing really well and getting taller each week! They've made an amazing effort looking after it, making sure it's watered and placed in a sunny spot so it can thrive. It's clear they've taken real care of their plant, and all that attention is really paying off.

Tilly-Niamh's sunflower is getting taller and taller each week and is looking fantastic! It's clear to see how much love and care she has been giving it at home. From making sure it is watered to helping it get plenty of sunshine, Tilly-Niamh (5S) has done a wonderful job looking after her sunflower.

Jessica's (3T) sunflower has had another fantastic week of growth and is really starting to stand tall! She has done an amazing job keeping a close eye on it each day, gently checking its progress and making sure it has everything it needs to stay strong.

Heidi (3C) and Ava's (6O'C) sunflower is really taking off and growing taller each week! They've put in a fantastic effort to look after it, taking turns to check on it and making sure it's supported as it stretches upwards. Their care and teamwork are really paying off, and their sunflower is looking strong, bright and healthy.

Isabelle's sunflowers, Sunny and Plantony, are growing brilliantly and are full of character! They are getting taller each week and really starting to stand out. Isabelle has done a fantastic job looking after both plants, keeping a close eye on their progress and taking great pride in how they are developing.

Oliver's sunflower is growing brilliantly and is reaching an impressive height! He has shown great dedication by regularly checking on his plant, making sure it has enough water and finding the perfect spot for it to enjoy plenty of sunlight. Well done Oliver (3T)

Love God Love Life Love Learning

We are so proud of all our students for the care, love and effort they are putting into growing their sunflowers. Each week it has been lovely to see their excitement as they notice changes and take real pride in helping their plants thrive.

Taking care of plants gives our children so many valuable experiences. It teaches patience, responsibility and resilience, as well as helping them understand how living things grow and depend on careful nurturing. It's been wonderful to see how attentive and thoughtful they are being, and how much joy they are getting from watching their sunflowers develop.

This links beautifully to the Bible verse: *"Consider how the wild flowers grow. They do not labour or spin. Yet I tell you, not even Solomon in all his splendour was dressed like one of these."* (Luke 12:27). This reminds us of the beauty of nature and how we can pause to appreciate the world around us.

Well done to all our young gardeners—you are doing an amazing job, and your sunflowers are flourishing!
